AUGUST/SEPTEMBER, 1969

FALL PREMIERE

Coming next month...September 21...it's the premiere of another big season of new programming on TV 5. For that reason, we are combining August and the first half of September into one issue. Therefore, you'll find the August movie schedule on the back, as usual, and movie selections for September 1 through 15 on the inside.

Remember! When you do not receive your copy of the "Tele-News Letter" at the first of next month, wait patiently. You'll get a copy around the 15th, telling about the premiere of all the exciting new programs.

And, while we're at it, it's the perfect time to have your television set checked if you're experiencing any technical difficulties. Also, NOW is the time to purchase that long-planned-for color set. Contact your dealer for the new set or your service technician for necessary repairs. Remember, also, that a high-quality antenna is a MUST for good reception. So, take care of these matters so that come September 21, you'll be sitting pretty for all of our new programs.

THE SPOOKS ARE COMING AGAIN!
