TWO-PIANO CONCERT

One of America's outstanding piano teams came to Raleigh recently to initiate WRAL-TV's newest piece of musical equipment just added, a 10-foot Baldwin concert grand piano. Twins Jeffrey and Ronald Marlowe performed classical and popular numbers on the two Baldwins, including a concert to the public and a televised concert. TV 5's auditorium has long been in demand for concerts and ballet and opera performances. We suspect the fact that two large concert grand pianos are available will increase the requests for piano recitals.

NEWS SEMINAR

WRAL-TV conducted its third annual TV-Radio News Seminar on Friday, May 4. Students interested in electronic journalism were invited from a number of schools in the TV 5 coverage area, and 26 students and faculty advisors attended. The group visited the legislature and held an interview with Representative Herbert Hyde and Senator Gordon Allen. They were also given illustrated lectures on the functions of television in news gathering and reporting by various members of the channel 5 staff.
